PETITION TO CORRECT THE FILING DATE UNDER CFR 1.183

Sir:

This is a Petition to Correct the Filing Date Under 37 CFR 1.183

Applicant's attorney attempted to file this application via Express Mail on November 20, 2001, however, on that date the United States Postal Service (USPS) refused to accept the deposit of mail for delivery by Express Mail Service. Per the instructions provided by the PTO website at www.uspto.gov/septemher11/uspsmaildisrup.htm, the application was re-deposited with the USPS on November 20, 2001 as first class mail, and was mailed to the Assistant

Commissioner for Patents at the special "Box Filing Date" address. Per the PTO's instructions, a statement signed and dated by the person who originally attempted to deposit the correspondence with the USPS as Express Mail was included, explaining the above situation. A copy of the signed statement that accompanied the application when filed via first class mail is enclosed for reference.

The undersigned attorney has since received the filing receipt, and notes that the application was not accorded the November 20, 2001 filing date. Instead, the application received a filing date of December 10, 2001, which was the date of receipt by the PTO.

As the US PTO designated the disruption in Express Mail service on November 20, 2001 as a postal service interruption within the meaning of 35 U.S.C. 21(a) and 37 CFR 1.6(e), and the special emergency procedures provided by the US PTO were correctly followed, applicant's attorney submits that this application is entitled to the November 20, 2001 filing date. Applicant hereby petitions the Assistant Commissioner to correct the filing date of this application to November 20, 2001.

While the PTO is hereby authorized to charge the \$130 Petition Fee to the undersigned attorney's PTO Deposit Account #50-1047, it is respectfully requested that the fee be immediately refunded upon grant of this petition.

Respectfully submitted,

A handwritten signature in cursive script, reading "Karin L. Williams", is written over a horizontal line.
